<sup>&</sup>lt;sup>1</sup>Including 815 male; and 3,213 female. <sup>2</sup>The unspecified were exchange teachers. <sup>8</sup>For the second term only. Permits are not issued for more than one term at a time. <sup>1</sup>Soit 815 hommes et 3,213 femmes. <sup>2</sup>Les non spécifiés sont des instituteurs échangés. <sup>8</sup>Pour le dernier semestre

seulement. Les permis ne sont accordés que pour un semestre à la fois.

Nore.—With the exception of the first column the figures for Manitoba are for 1923 and exclusive of Winnipeg and certain other schools. The number of teachers classified (2,871) is, therefore, a mere sample, though a large one, of the

teachers outside Winnipeg.

Notz.—A l'exception de ceux de la première colonne, les chiffres du tableau ci-dessus sont ceux de 1923 et laissent de côté les écoles de Winnipeg et certaines autres. Par conséquent, les 2,871 instituteurs classifiés ne représentent que la majeure partie du personnel enseignant, en dehors de Winnipeg.

<sup>1</sup>a The number given as Preparatory includes 30 in the first year and 20 in the second year of the course at this University, the third year being taken as equivalent to the first year in Arts. The total includes 22 Commercial students who are not given by years. Presumably the 48 in the fifth and sixth years are following the Philosophy course, which in this University is considered Graduate work. I Including 158 in the Regular Degree Courses in Arts and Pure Science as given by years alone and 59 special students; the remaining 16 being students in Household Science, Music, Finance and Commerce and Theology, whose Academic subjects would be taken with the students in Arts and Pure Science. Including the first two years of Engineering, the Academic subjects of which would come under pure science, the total number of students taking Arts and Science subjects by years was: 1st year, 78; 2nd year, 63; 3rd year, 34; 4th year, 34; graduates, 5; special, 59. 20 f whom 107 are partial students. \$1 th will be noticed that there are only 3 academic years mentioned for Bishop's College, the 3rd year being the graduating year in Arts. 40f whom 9.816 were in affiliated institutions. See table 1.7. \$Including 120 occasionals and 281 in Teachers' Course and excluding 30 duplicates. \$Conferred by the University of Toronto. \*Including 6 occasional students. \*Including 55 partial students and 2 candidates for examinations only. \$Including 239 Special Students and those having a limited program, that is, less than a year's work. \*In Presumably 67 of these were special or occasional students not given by years.

la Le nombre donné dans préparatoire inclut 30 en première année et 20 en deuxième année du cours de cette université, la troi ième année étant considérée comme la première en arts. Le total comprend 20 élèves dans le cours commercial qui ne sont pas el ssifiés par année. Probablement, les 43 dans la ciaquiè ne et la sixième années suivent le cours de philosophie qui est considéré comme un cours de gradués dans cette université. ¹Comprend 158 dans les cours réguliers de lettres et science pure donnés à l'année seulement et 59 élèves spéciaux; le re-te, 16 étudiants en science ménagère, musique, finance et commerce, et th'éologie, dont les sujets académiques ront suivis avec les étudiants en arts et sciences pures. Comprend les deux premières années en génie, dont les sujets académiques tombent dans les sciences pures, le nombre d'étudiants suivant les lettres et sciences, par année est: lère année, 78; 2ième année, 63; 3ième année, 39; 4ième année, 34; gradués, 5; spéciaux. 59. ² Dont 107 étudient une partie du temps. ³ A noter que seulement 3 années académiques sont mentionées pour le Bisl op s College, la troisième année donnant le degrée na arts. ⁴Dont 9,816 dans des institutions affiliées. Voir tableau 127 è Comprend 120 occasionnels. et ¹81 dans cours de pédagogie, et excluant 30 doubles emplois. °Conféré par l'I niversité de Toronto. <sup>†</sup>Comprend 6 étudiants d'occasion. <sup>§</sup>Comprend 55 étudiants partiels et 2 candidats aux examens seulement. °Comprend 229 étudiants spéciaux et ceux ayant un programme limité, soit moins d'un an de travail. ¹¹ Probablement 67 de ceux-ci étaient des étudiants spéciaux ou d'occasion pas classifiés par l'année.

<sup>&</sup>lt;sup>1</sup> Including 8 Independent schools where superior education is given. Of these, 3 (Maison St. Joseph, Semin. de Philosophie, Studium Franciscain) had no students in Theology in 1925, but the 8 would seem to be more closely connected with Theology than any of the other types listed in this table. <sup>2</sup> Including 10 Independent institutions where classical education is given. These had 82 staff and 541 students. <sup>3</sup> Macdonald Teachers' College. Notice, however, that Macdonald is not entered twice in the total. <sup>4</sup> Not included in the total.

<sup>&</sup>lt;sup>1</sup> Comprend 8 écoles indépendantes donnant l'instruction supérieure, dont 3 (Maison St-Joseph, Sém. de Philosophie, et Studium Franciscain) n'avaient pas d'étudiants en théologie en 1925, mais les 8 semblent plus rapprochés de la théologie que les autres types. <sup>2</sup> Comprend 10 institutions indépendantes donnant l'enseignement classique, avec un personnel de 82 et 541 élèves. <sup>3</sup> Le cours pédagogique du Collège Macdonald, mais n'est pas entré deux fois dans le total. <sup>4</sup> Pas compris dans le total.

Notes to Number of Students by Type of Course and Provinces, 1924-25

1 Household Science. 2 Secondary Technical Schools. Not entered in the total. 3 Post-Graduate course in Theology at Macdonald College. 4 of these were in McGill University. 5 Excluding 2d duplicates between courses. 7 Excluding 2d duplicates between courses. 7 Excluding 2d duplicates between courses. 8 To the 1,964 in Quebec must be added 9,366 in Classical Colleges, 541 in independent classical schools and 409 in independent superior institutions, or 10,313 in all, making a total for Quebec of 12.277 and Canada 21,367. The types of courses could not be given for these in the same terms as shown in the table but may be seen by consulting T. 138-140. The students in the independent superior institutions may all be considered as in regular courses; of those in the classical colleges, 1,111 were included with the under-graduates in Arts in Laval and 1,220 with the under-graduates of Montreal. The balance of the 6,560, i.e. 4,229 in the classical course in these colleges presumbaly are in high school grades and would come in the preparatory column of the above table. The 1,665 in commercial courses in these colleges might also be considered as high school grade students. The remainder of the 9,363 or 1,138 were in primary work. The grade of this work is not necessarily elementary since the distinction between "primary" and "secondary" in other provinces; e.g. students training as teachers in primary schools and to undergo examinations by the central board of examiners might be considered primary students although really doing work which would be considered high school work in other provinces. The division of courses in the independent classical schools is not given. They cannot all be considered in preparatory since a certain number of them many have been taking the regular work in Arts. Leaving these out, the full division into courses in the colleges of Canada would be roughly Preparatory, 8,289; Regular, 8,272; Correspondence, 1,459; Short, 3,

10 La fait les tableaux 138 dans les collèges classiques, 541 dans les écoles cupérieures indépendantes et et en arts de Laval, et 1,200 dans les cours réguliers: de ceux des collèges classiques, 1,111 sont inclus dans les sous-gradués en arts de Laval, et 1,200 dans les sous-gradués de Montréal. Le reste des 6,560, soit 4,229, dans le cours classique de ces collèges, sont probablement dans les degrés secondaires et entrent dans la colonne des cours préparatoires dans le tableau ci-dessus. 
Les 1,665 dans le cours commercial de ces collèges peuvent être aussi considérés comme dans les degrés secondaires. 
Le reste de 9,363, ou 1,138, sont dans les degrés élémentaires. Le degré n'est as nécessairement élémentaire, attendu que la distinction entre primaire et secondaire n'est pas la même que celle entre élémentaire et secondaire dans les autres provinces. 
Par exemple, les élèves se préparant à l'enseignement dans les écoles primaires et qui doivent subir des examens devant le bureau central d'examinateurs peuvent étre considérés comme élèves des cours primaires, bien que leurs é-udes soient celles des hautes écoles des autres provinces. La division des cours dans les écoles classiques indépendantes n'est pas do
